

**NEW!!**

# ***DGV-1 Piercing Device Universal***

**<Features>**

1. DGV-1 Piercing Device Universal is a wide-use piercing device equipped with DGV-1. This instrument measures gas volume of beverage in various packages such as cans, glass bottles, bottle cans, etc. (Note1.)
2. This instrument enables an easy and constant piercing. In addition, piecing depth is always the same with Cam Lock Lever. Load at piercing will not damage the package.
3. DGV-1 Piercing Device Universal is compact and light-weight, and futhermore, at low price (-15%).

**<Exapmles of use>**

Note 1. Package size that can be measured with this instrument is upto 254mm high, 80mm diameter. If your sample is over this size, please contact us.

If your samples is PET, we recommend you to use DGV-1 Piercing Device for PET, which is more compact and light-weight. With this instrument PET will not be buckled even if very low gas volume beverage is filled.

***Make your process simple!***

***Higher quality is expected!***
